AKCELERANT AND XPRESS DATA PARTNER TO INTRODUCE CONNECT.XDI

MALVERN, PENNSYLVANIA – September 9, 2008 –Akcelerant Software LLC (Akcelerant) and Xpress Data, Inc., a leading provider in printing and mailing services, have signed a business partner agreement to offer CONNECT.XDI, a valuable tool in streamlining member correspondence through the Akcelerant Framework.

“Efficient and cost effective communications is critical to any business,” states Jay Mossman, President & CEO of Akcelerant. “By partnering with Xpress Data to provide our customers with their service, we knew we had a home run. We have been very impressed with Xpress Data as a company and we are very excited about this new partnership. We believe that this will be a great benefit to our customers.”

CONNECT.XDI allows member letters and notices to be generated in the Framework and sent directly to Xpress Data to be produced and delivered. Outsourcing this business function creates less work, lowers costs, and increases the quality of member communications.

“Rarely does a strategic business partnership actually benefit both companies and, most importantly, their clients. We think this one will. We are proud to be aligned with a first-class company like Akcelerant and we are looking forward to giving their customers a ‘best-of-breed’ outsourcing option for the production and delivery of letters created in the Akcelerant Framework,” states Dave Hancock, VP Business Development of Xpress Data, Inc.

About Akcelerant Software LLC

Akcelerant Software LLC, headquartered in Malvern, Pennsylvania, provides software solutions to the financial services industry for marketing, sales and service, lending, collections, and recovery through its Akcelerant Framework product line. Akcelerant services over 200 credit unions and banks in 44 states. For more information about Akcelerant, visit <http://www.akcelerant.com>.

About Xpress Data, Inc.

Xpress Data, Inc., located in San Diego, California, is the only company in the nation specializing in the composition, production and delivery of credit union notices and letters. Files are transmitted to XDI where documents are formatted to the exact specifications of each individual credit union, printed and mailed that same day via first-class or certified mail or delivered electronically through integration with existing Internet Banking platforms. Since launching its flagship XpressNotice™ service in 1999, more than 100 credit unions across the United States have made the decision to entrust XDI with the production and delivery of their notices and letters. For more information on XDI and its XpressServices™, visit <http://www.xdi.com>.
